Re: Public Input Process on Allocation of Federal Funds and Comments on IHCD A Applications

Consolidated Citizen Forum Schedule

The State of Indiana will be hosting three (3) citizen forums around the state to receive comments on identifying local housing and community development needs. IHCD A encourages your organizations to take advantage of the public comment process by involving your clients to express their views. Public housing authorities are also encouraged to become involved in the planning process to ensure their local agency plans remain consistent with the policies of the State Consolidated Plan.

A brochure describing the Consolidated Plan and the Federal programs involved may be viewed at: <http://www.in.gov/ihcda/comdev/conplan/plan.htm> The brochure also gives the dates, time, and specific locations of the public forms.

2006 IHCD A HOME & CDBG Application Packages

IHCD A will host a session prior to each citizen forum to solicit comments on recommended changes to the policies and guidelines of IHCD A's HOME, CDBG, and CHDO Works application packages.

If you are unavailable to attend these forums, you are encouraged to submit your comments to the Community Development Representative in your area. A map identifying the Representatives is located at: <http://www.in.gov/ihcda/comdev/newsfaqs/regions/regions.htm>
